Sub-committee on Aircraft Production Fears Hughes Will Need Months.

DECISION IS SURPRISE BROWNING GUNS ON WAY

-Will Hold Public

Special Desputes to Tax Box. WASHINGTON, May 24.—Investigation of the alreraft situation by the Senate Military Affairs Committee will be undertaken, regardless of the investigation now under way with Charles E. Hughes at its helm.

This determination was reached at to-day's session of the Military Com mittee, at which the decision was prac tically unanimous that the work must be undertaken. Through the sub-com mittee on aircraft production, consist ing of Senators Thomas (Colorado) Reed (Missouri), Smith (Georgia) (Indiana) and Frelinghuyses (New Jersey), the investigation will

be begun at once.

To-morrow Senator Thomas, the subcommittee chairman, will visit Mr. Hughes and arrange the details of proedure, with a view to avoidance of any clash of authority or the development of any line of inquiry into the shortcomings of the aircraft programme which interferes with the investiga-tion undertaken by the Department of Justice, which Mr. Hughes will direct

Decision Is a Surprise.

To-day's decision came with some surprise, as the first view of the Sena-tors, after Mr. Hughes's letter on the subject, was that such action was un-

The reasons prompting the Military Committee to resume the investigation convey no suggestions of doubt as to the thoroughness or the comprehensive character of the Hughes investigation.

Despite the assurances of Mr. Hughes Despite the assurances of Mr. Hughes and his evident disapproval of an investigation at the same time by the Senate, the members of the committee have felt that the Hughes investigation in the nature of things must take an entirely different survey of the situation and serve an altogether different purpose from their own. The investigation by the Senate Committee, they now insist, has a wholly different purpose from that which the Department of Justice will pursue. These points were clearly expressed to-day by a members of the sub-committee, who said that in the nature of things the two investigations must go forward hand in hand.

Public Hearings Planned. The Senators intend to hold public comings of the aircraft production pro gramme. They will seek to ascertain what specifically is wrong in the matters of supplies of material, contract arrangements, questions of design and altera-tions in design and the whys and where
